## Landscape Design Pre-Planning Checklist

**Get the most out of your professional help** by being prepared with your input and information. The following checklist has been developed from experience with customers who may be starting from scratch, or already have experience to build on. Whether a small entry plan or major property landscape make-over, much of the information needed is about the same for any size project. This information will be helpful in completing your landscape design.

### Property information

- Property address and contact phone numbers.
- Date of home building (age or date of completion).
- Look for / provide property site plan if available, including house plans and / or previous landscape plans (may be with realtor / sales file, previous projects / city-county permits).
- Find location of underground utilities around the yard not otherwise visible.
- Any drainage issues noticed seasonally, with neighbors, or at street.
- Future plans for home expansions, streets or neighborhood.
- Snow plowing / drifting /icing issues.

### Customer Preferences

- About the landscaping to be planned, what is the general direction we want to achieve?
- Existing and planned property use for enjoying the outdoors around the property?
- Owners interest in working outdoors, maintaining the landscape?
- Size of lawns and planting beds, mowing vs gardening?
- Dislikes about current landscape, plants, and problems around the property?
- Likes from other landscapes you have seen?
- Do you have some favorite plants / trees/ annuals / perennials you want to use?
- Outdoor living area needs – patios, walkways, decks, fences, retaining walls, fences?
- Special features you are interested in: irrigation, water features, music, cooking center, lighting?
- Budget & phasing, do-it-yourself parts vs help needed?

Cost for Consultations / Plans due at time of appointment.

Please call the Garden Center for any questions or changes in your schedule for the appointment.
